Double Letters Relay

- Cards (set 1) are divided into two groups. (The double letters 'ee, oo, oi, oi' belong to one group and the others 'ea, oy, ay' belong to the other group.)
- Children are divided into two teams and each team is provided with one set of the cards and four counters.
- Teams put each of their counters on the four starts (1, 2, 3, 4) separately on their own lane. These counters are considered as runners.
- Two teams throw the dice at the same time and the team with bigger number goes ahead one space. They can put down 2 cards inside the track after saying the words. (In case of 'oy' they can put down just one card as there are only three of them.)
- When the first runner (counter) touches the second number, the second runner continues the race.
- The first team to have the last runner reach the finish line is the winner.
